Company Profile

Italmatch Chemicals is a Global Specialty Chemical Company, focusing on Personal Care, Fabric & Home Care, Industrial and Institutional, Oil & Gas, Lubricant, and Plastics Additives, Markets and Technology leadership in Phosphorus Derivatives (both Organic and Inorganic), Polymers, Esters and Chlorides, from Synthetic to fully natural products.

The group operates through seven manufacturing plants in Europe (Italy, Spain, Germany and UK), five in Asia Pacific (China, Japan and India), five in North America (USA) and sales/distribution subsidiaries in Brazil, Belgium, China, Japan, India, Poland, Singapore and the USA.

The Company has a global platform with extended network of own subsidiaries and continuous international expansion.

A consistent high product quality is ensured by a team of experienced and skilled people, with particular focus on joint product and technical development with Customers/Partners.

The wide market sectors already encompassed by Italmatch Chemicals are destined to expand even more thanks to its ambition of growth.

The ability to combine the reliability of tradition with the opportunities offered by sustainable technology, implemented by an expert and dynamic management, results in Italmatch Chemical's unparalleled creativity, competence and Customers satisfaction. By focusing on today's dynamic world of specialty chemicals and its expanding horizons, Italmatch Chemicals offers advanced and effective solutions.
