

ITALMATCH CHEMICALS

For over 20 years,
sustainable chemistry
for a better life. Worldwide.

Italmatch Chemicals is a leading innovative chemical group, specialized in Performance Additives for the Lubricant, Plastics, Water & Oil markets. The company has a wide range of specialty chemicals to satisfy most demanding applications, including Personal Care.

OUR PRODUCTS

Water & Oil performance additives

Antiscalants, Biocides, Corrosion inhibitors, Emulsion polymer, LMW polymer, HMW flocculants, Fuel cleanings agents, Full solutions

Lubricant performance additives

P2S5, Polimeric esters, Conventional & compe esters, Amides, Sulphurides EP additives, Hydraulic fluids, Grease additives, MFW additives

Flame retardants and Plastic additives

Red Phosphorus flame retardants, Melamine flame retardants, Phoslite flame retardants, Metallicd Stearates, PVC additives, Antislip lubricating additives.

Performance product and Personal care

Phosphorus clorides, Fatty acid chlorides and esters, Special phosphites/phosphates, High purity HCL, OPA, Personal care, Liquid & Solid EV batteries electrolytes.

VALUED PARTNERS

In constant dialogue with change and with a forward-looking vision oriented towards the future, Italmatch Chemicals believes and inspires its people to listen to intuition, have an entrepreneurial spirit, work to innovation, be focused on sustainability, advantages for vertical integration.

AT A GLANCE

650 M Euro Sales

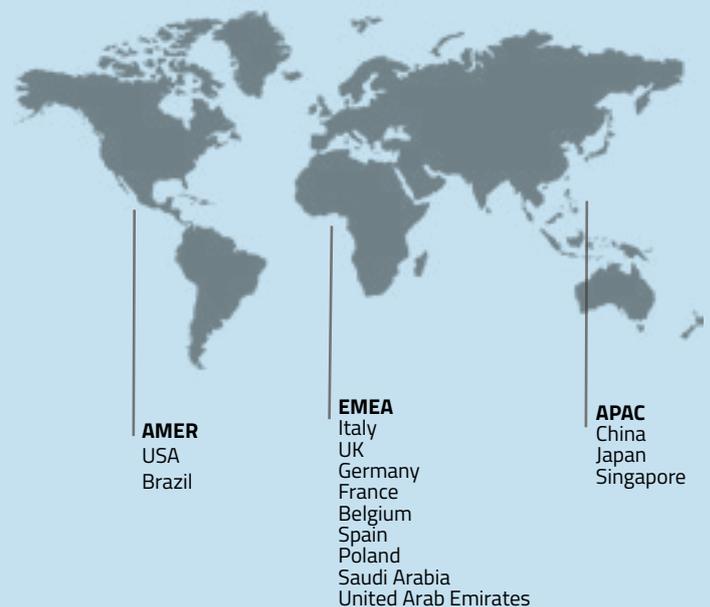

18 Manufacturing Plants

6 R&D Centres

85% Export

>1.000 Employees

ITALMATCH CHEMICALS

You can't see us, but we are present in several moments of your everyday life

MARKETS & APPLICATIONS

**INDUSTRIAL CLEANSER
DESALINATION**

OIL EXTRACTION AND RECOVERY

MINING AND AGROCHEMICAL

ADDITIVES FOR INDUSTRIAL LUBE OIL

**MFW ADDITIVES, NEAT OIL & WATER,
GREASE**

**FUEL ADDITIVES, INTERMEDIATES
FOR ENGINE**

**PVC, EPOXY, RUBBERS, FOAMS
FLAME RETARDANTS**

PHARMA

COSMETICS

GROWTH STRATEGY

Italmatch has established a comprehensive sustainable and ethical development strategy based on economic performance, leadership in technology market, innovation and "beyond" innovation. Operational excellence program is a pillar to support growth and economic performance: leading-edge technology, continuous improvement of productivity and quality, highly cost effective industrial platform.

SUSTAINABILITY

Italmatch is committed in a transition towards new process and productions based on sustainable principles.

R&D new projects based on **circular economy** principles for recovery of raw materials from waste

Investments in **desalination** of water to help countries with water scarcity

R&D for a **new generation EV batteries** for better performance, in order to spread the EV diffusion

INNOVATIVE PROJECTS

Some of our breakthrough innovations, circular economy projects and startup acquired:

RecoPhos - project that aims to recover Phosphorus from urban waste.

Eco Inhibitors - startup that works to develop new sustainable way to a new generation of eco-friendly hydrate inhibitors for Oil & Gas applications

Magpie - startup that has developed a new technology for selective filtration to recover precious metals that usually get lost during the traditional treatment.
